

# Welcome area personalization

## Reception

The welcome area requires a lot of customized solutions to form a unique brand image of the company. We can create a reception with PET felt details upon your request.

This combination of two plain shapes creates an asymmetric and minimalistic yet bold and memorable image. You can create an ergonomic workplace using 1800x800 mm regular or sit-stand desks which can be adjusted to a chosen height by employees. The left side combines integrated pedestal and cabinets for storage.
